

FieldSync

Worker Quick-Start Guide

Everything you need to check your shifts, request time off, and sync your calendar.

1. Signing In

Open FieldSync in any browser — phone, tablet, or computer. No app download needed.

Steps to log in

1. Tap the **Worker** button at the top of the login screen.
2. Enter the email your manager set up for you.
3. Enter your password and tap **Sign in**.

■ *Forgot your password? Tap "Forgot password?" — your manager will be notified to reset it.*

2. Home — Today's View

Your daily dashboard — opens automatically on login. A blue dot in the week strip means you have a shift that day.

Confirming your shift

- **Confirmed** — you're planning to be there.
- **Can't make it** — alerts your manager to find a replacement.

■ *Only published shifts appear here. No shift visible = manager hasn't published that week yet.*

3. My Shifts

My Shifts shows your full season schedule — every game or crew day assigned to you, past and upcoming.

Confirm or decline

Each shift card has **Confirmed** and **Can't make it** buttons — same as on the Home screen.

Offer up a shift

Tap **Offer up this shift** to post it to the open-shift board. Another available worker can then claim it.

Show past shifts

Tap **Show past** to see previous shifts for the season.

Sync your calendar

- Tap the Calendar button at the top of My Shifts.
- Tap "Generate my calendar link."
- Choose Apple Calendar, Google Calendar, or Outlook.
- Shifts will appear and auto-update when the manager publishes changes.

4. Requests

Use the Requests tab to submit time-off requests or shift swaps. Your manager reviews and approves them.

Requesting time off

1. Tap the **Requests** tab at the bottom.
2. Tap **New request**.
3. Select **Time Off** as the type.
4. Pick the date (or range) you need off.
5. Add a reason if you like, then tap **Submit**.

Requesting a shift swap

1. Tap New request → **Shift Swap**.
2. Select the date and location of the shift.
3. Add a note and tap **Submit**.

■ *Submit requests as early as possible — the manager needs time to find coverage.*

Tracking your requests

- Tap My requests to see all requests you've submitted.
- Pending = under review. Approved = confirmed. Denied = declined.
- You'll receive an alert when the manager acts on your request.

5. My Profile

Update your contact info, availability, and password from the Profile tab.

Years of experience

Enter your years of experience. More senior workers get first pick of shifts during auto-scheduling.

Phone number

Add your phone number with country code (e.g. +1 555 123 4567) for SMS shift reminders.

Availability

Toggle days on/off to show when you can work. If you hold multiple roles you'll see a tab per role.

Tap **Save profile** when done.

Change password

Enter your current password, then your new password twice, and tap **Update password**.

■ *Keep your availability current — if a day is marked unavailable you won't be scheduled.*

6. Alerts

The Alerts tab shows all notifications from your manager — schedule updates, reminders, rainouts, and request outcomes.

Types of alerts

Schedule published — your shifts for a week are now visible.

Shift reminder — a heads-up that you're scheduled soon.

Claim approved — a shift you claimed from the open board was approved.

Rainout — a game has been cancelled due to weather.

Mark as read

Tap **Mark all read** to clear the notification badge. Unread alerts show as blue dots.

The red badge on Alerts

- The number on the bell icon = unread notifications.
- Always check Alerts after the manager publishes a new week.
- Rainout notifications are urgent — a game has been cancelled.

Quick Reference

I want to...	Go to...
See today's shift	Home tab → today's game card
Confirm I'm coming	Home or Shifts → tap Confirmed
Report I can't make it	Home or Shifts → tap Can't make it
See my full season schedule	Shifts tab
Add shifts to my calendar	Shifts tab → Calendar → Generate link
Offer up a shift	Shifts tab → shift card → Offer up this shift
Request time off	Requests tab → New request → Time Off
Request a shift swap	Requests tab → New request → Shift Swap
Update my availability	Profile tab → toggle days → Save profile
Check for schedule updates	Alerts tab
Change my password	Profile tab → Change Password section
Reset a forgotten password	Login screen → Forgot password?
